

TOP 10 PRINCIPLES TO FOLLOW FOR PROSPERITY AND ABUNDANCE

Prosperity and abundance aren't just for a select few. You can experience a level of abundance that you can't even imagine at this point in your life. **Your imagination and time are your only limitations.**

A positive, effective mindset is half the battle. The other half is taking responsibility for your future. As much as some people want to promise you that you can daydream your way to a billion dollars without lifting a finger, reality is quite a bit different.

Use these strategies and enjoy prosperity and abundance in your life:

1. **Release negativity.** Negative thoughts have many negative consequences. Negative thoughts are paralyzing, exhausting, and prevent you from being your best. When you expect the worst, you're not going to have great outcomes.
2. **Keep positive thoughts.** Have high expectations for yourself, your future, and your results. Monitor your thoughts throughout the day and keep them on a positive track. Expect good things to happen, and they will.
3. **Be grateful.** If you believe that you have nothing in your life to be grateful for, you can expect to struggle. So, remind yourself of how good things already are in your life. Put yourself in a position to receive more from the universe. **Be grateful and more things will happen that you can be grateful for.**
4. **Visualize.** Visualizing requires you to figure out what you want. It also keeps your objectives fresh in your mind. Set aside a few minutes several times each day to visualize the future you want to experience. Feel positive emotions during your visualization practice. You'll see the benefits soon.
5. **Take risks.** Those with the most took the biggest risks. You can't expect to play it safe and experience prosperity and

abundance. Take calculated risks where the potential payoff is worth the risk.

6. **Never be satisfied.** That doesn't mean you have to make yourself miserable all of the time. Instead, have a healthy curiosity of what it would take to experience greater levels of prosperity and abundance. Then see if you're right! Experiment with your life.
7. **Persist. The key to abundance is staying the course.** It's important to maintain your vision for the future and your effort. There will be work required on your part to bring abundance into your life. But this work will pay off!
8. **Seek help.** You don't have to take on the universe all by yourself. The world is full of capable people that can help you. Someone out there has already accomplished the things you want to accomplish. Get some advice.
9. **Hang around the right people.** Surround yourself with positive, supportive, successful people. **Who's in your social circle?** Are they lifting you up or dragging you down?
10. **Dream big.** If your dream is to own a three-bedroom ranch and drive a Ford, you're unlikely to ever live in a mansion and drive a Mercedes. Set your sights high and you'll experience more prosperity and abundance.

Are prosperity and abundance in your future? It all starts with your expectations and attitudes. **Negative thoughts and expectations repel abundance.** Accept responsibility for the future you desire and be persistent. Good things are coming your way!
